Using CloudLibrary

When the App opens you should see the Featured page which will look something like this.

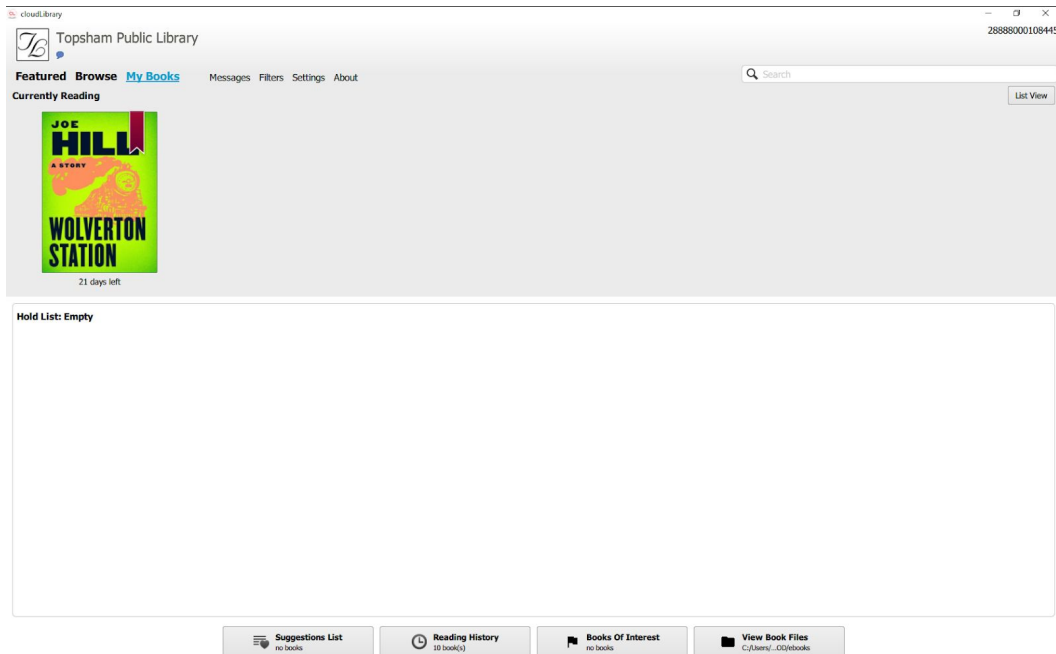

There are options along the top left of the screen each allowing you to do different things. The Featured tab page shows the ebooks and eaudiobooks that CloudLibrary is featuring at the time (it doesn't always stay the same).

The Browse tab is where you can filter your choices by selecting the different genres that you would like to view.

The My Books tab is where you can see what you have currently checked out, have on hold, and even the history of the items that you have previously checked out.

Filters is the option for changing what types of titles you would like to see e-books only, e-audiobooks only, or both. You can also choose to see all titles or just what's Available Now. If you select available now remember you will be limited to those titles only and must switch back to all titles to see full collection and place holds.

The image shows a dialog box with two sections: "View" and "Format".

- All Titles
- Available Now

At the bottom of the dialog box are two buttons: "Apply" and "Cancel".

Message and Settings have only one option. Message is the email message you will receive to notify you that your hold is ready for checkout. You will need to enable email notification in Settings.

How to borrow a book in CloudLibrary.

I used the Search option and searched “Stephen King”

The screenshot shows the CloudLibrary interface for Topsham Public Library. The search bar contains "Stephen King". The results list the following books:

At the bottom of the page, there are links for "Go to full library catalog" and "Load More".

Depending on the availability of the item you are interested in, you will click on Borrow or Add to Hold List. The books that have a little headset icon in the bottom right corner are audiobooks (if you don't want them remember you can always change the filter settings).

When you click on borrow the next page will give you a quick description of the book you are selecting, hit Borrow again to confirm you would like that specific book.

A STUNNING NEW NOVEL FROM ONE OF THE BEST-SELLING AUTHORS OF ALL TIME!
The #1 NEW YORK TIMES BESTSELLER!

Set in a small-town North Carolina amusement park in 1973, Joyland tells the story of the summer in which college student Devin Jones comes to work as a carry and confronts the legacy of a vicious murder, the fate of a dying child, and the ways both will change his life forever.

"I love crime, I love mysteries, and I love ghosts. That combo made Hard Case Crime the perfect venue for this book, which is one of my favorites. I also loved the paperbacks I grew up with as a kid, and for that reason, we're going to hold off on e-publishing this one for the time being. Joyland will be coming out in paperback, and folks who want to read it will have to buy the actual book!" -Stephen King
