

## Uploading to YouTube

1. Record and Save your video on your laptop/device
2. Go to your youtube channel
3. Log in to your account

You will need to know your username and password

If it needs a confirmation code, it will go to the email your account is registered to

4. Click the video camera in the top right corner and choose "upload video." From there drag or select your video file
5. Name your video and add a description if needed. Scroll down. Select a thumbnail (choose the best still). Select your audience. Click next
6. Click next again (we're skipping the video elements screen)
7. Click public then click publish

### Sharing the video

1. Once you have published it, it will bring up a sharing screen. From here you can share it to facebook or twitter but it will share to whatever account you are logged in at the time. You can always go back to the video and access the share feature by clicking the share option underneath the published video
2. It also provides a video link which you can share
